mettiamo l'energia in rete

Canale Energia is the free online daily for the one who wants to understand how and how much the energy' cost, energy efficiency' impact and environmental sustainability may have an impact on his business as in his house. An instrument to inform final customers too, especially if "defenseless".

Canale Energia is use to be media partner in European international events.

MONTHLY METRICS

20.000 page views
18.000 unique visitors
282.507 impression

Technical Specifics

All positions on the home page are rolling with maximum two other companies. The files must be in Jpeg or GIF format, statics or animated. Must not exceed 250 kb and can be equipped with a pointing link. The cost is calculated on planning on weekly basis, rather than the quantity of the generated impressions. All prices are net of VAT if due and agency fees.

Video reportage

Creation of video content on site by a journalist. The video will then be editing in full format (about 10 minutes) for use by the client who can publish it on its communication channels citing the source; in short format (about 3 minutes) for dissemination on the Canale Energia headline.

The publication will be accompanied by an original text.

The cost is calculated on planning on weekly basis rather than the quantity on the generated impressions.

All prices are net of VAT if due and agency fees.
